

# Subjects

## Affordability analysis

analysis of demand components in multifamily markets, 239-252

residential and retail affordability rents and sustainable value, 218-221

## Appraisal Institute (AI)

AI Guide Note 12: *Analyzing Market Trends*, 212-216

AI Guide Note 13: *Performing Evaluations of Real Property Collateral for Lenders*, 173-179

AI technical writer's commentary on *The Appraisal of Real Estate*, 14th edition, 348-352

AI tools for valuation of green features, 317-318

## Appraisal profession

effect of 2007 recession on employment in real estate industry, 129-130

employment trends in appraisal profession, 129-141

## Appraisal reports

Guide Note 12: *Analyzing Market Trends*, 212-216

Guide Note 13: *Performing Evaluations of Real Property Collateral for Lenders*, 173-179

## Awards

Appraisal Journal Outstanding Service Award, v (Spring)

Appraisal Journal Sponsorship Opportunities, iii (Winter), iv (Spring), iv (Summer), iv (Fall)

Armstrong/Kahn Award, vi (Spring)

Ratcliff Award, viii (Spring)

Swango Award, vii (Spring)

## Basements

measuring below-grade square footage, 303-305

## Capitalization rates

analysis of capitalization rates and market cycles, 215-226

capitalization rates and self storage facilities, 253-261

## Commercial property

valuation of movie theaters, 112-128

valuation of self storage facilities, 253-262

## Comparable sales

analysis of movie theater comparables, 121-126

use of comparable sales versus complete data sets, 332-340

## Court cases

case law on actual cash value, 310-312

recent state court decisions, 1-6, 91-98, 187-194, 279-286

takings cases in the US Supreme Court, 19-23

## Discounted cash flow analysis

discounted cash flow analysis applied to solar photovoltaic systems, 316-329

discounted cash flow analysis applied to subdivision development, 155-164

discounted cash flow analysis in evaluating self storage asset class, 258

discounted cash flow analysis in movie theater valuation and investment analysis, 122-126

discounted cash flow analysis in options in real estate valuation, 227-238

## Distressed markets

lag of market indicators in distressed markets, 63-73, 340-343

tools for analyzing a market cycle, 216-225

## Entrepreneurial incentive

analysis of potential profit, 216-217

## Evaluations

Guide Note 13 advice on evaluations of real property collateral for lenders, 173-179

## Externalities

effect of nuclear power plant proximity on land sale prices, 34-44

price effects of proximity of high-voltage transmission lines, 45-62

## Expert testimony

appraiser expert testimony in tax abatement hearings, 143-149

## Feasibility

feasibility of land development based on profit and yield, 151-172

feasibility rent, 217-218

## Flooding

court decisions on when flooding constitutes a compensable taking, 20-22

## Frictional vacancy

frictional vacancy in market cycles, 217

## Fundamental value

fundamental value compared to market value, 213-223, 229-237

fundamental value as component of overall value, 228-230

self storage fundamentals, 257-259

## High-voltage transmission lines (HVTs)

price effects of proximity and view of high-voltage transmission lines, 45-62

## Historic properties

valuing historic properties in China, 206-211

## Home values

estimating the contributory value of solar photovoltaic systems, 318-329

impact of relative size on sale prices of homes, 24-33

price effects of proximity and view of high-voltage transmission lines, 45-62

## Housing markets

buyer motivations associated with differences in sale prices of homes, 24-26

examining market components and market indicators, 63-73

## Income capitalization approach

income capitalization approach and historic properties, 211

income capitalization approach and properties with photovoltaic systems, 322-323

## Insurance

valuation of actual cash value for insurance purposes, 308-312

## International appraising

valuing historic properties in China, 206-211

## Land

applicability of discounted cash flows for short-term developments, 151-172

effects of a nuclear power plant on land sale prices, 34-44

relationship between profit and yield in land development, 151-172

### **Litigation**

ad valorem tax review and abatement issues for special-purpose properties, 143-149

broad evidence rule, 311-312

court decisions on when flooding constitutes a compensable taking, 20-22

takings cases in the US Supreme Court, 19-23

### **Market analysis**

analysis of measures to identify market cycles, 212-226

buyer motivations associated with differences in sale prices of homes, 24-26

examining market components and market indicators in market analysis, 65-75

statistical problems with Market Conditions Addendum form analysis, 340-345

### **Market modeling**

approaches to predicting future trends, 212-226

modeling multifamily residential market, 239-252

### **Market value**

appraising the movie theater, 112-128

comparison of fair market value and actual cash value, 310-312

cost approach in determining market value of limited-use and special-purpose properties, 144-149

examining market components and market indicators in a market analysis, 63-75

fundamental value compared to market value, 213-225, 229-237

### **Movie theaters**

income analysis for leased movie theaters, 122-126

market analysis for movie theaters, 116-121

movie theater industry trends, 113-116

valuation of movie theaters as a going concern, 119-120

### **Neighborhoods**

impact of relative size on sale prices of homes in a neighborhood, 24-33

### **Obsolescence**

movie theater obsolescence from changing design and technology, 113-116

### **Profit**

relationship between profit and yield in land development, 151-172

### **Proximity**

effect of nuclear power plant proximity on land sale prices, 34-44

price effects of proximity of high-voltage transmission lines, 45-62

### **Rent**

feasibility rent and equilibrium rent in market cycles, 217-219

### **Residential property**

impact of relative size on sale prices of homes in a neighborhood, 24-33

price effects of proximity and view of high-voltage transmission lines, 45-62

residential affordability rents and sustainable value, 218-221

### **Self storage facilities**

trends in and economics of self storage facilities, 253-261

### **Solar energy**

estimating the contributory value of solar photovoltaic systems, 318-329

PV Value tool, 320-326

### **Special-purpose properties**

ad valorem tax review and abatement issues for special-purpose properties, 143-149

valuation of movie theaters, 112-128

valuation of self storage facilities, 253-261

### **Statistical analysis**

applying the correct statistical approach, 337-340

common statistical mistakes, 343-346

identifying the analytical problem, 334-335

statistical analysis as part of broader data science, 332-347

statistical problems with Market Conditions Addendum form analysis, 340-345

use of samples versus complete data sets, 332-346

### **Stigma**

effects of a nuclear power plant on land sale prices, 34-44

price effects of high-voltage transmission lines, 45-62

### **Subdivision development method**

subdivision development and inappropriate application of profit and yield, 151-172

### **Uniform Standards of Professional Appraisal Practice (USPAP)**

USPAP competency requirements related to solar energy features, 321

USPAP provisions applicable to evaluations of real property collateral for lenders, 173-179

USPAP requirements related to data completeness, 336-337

### **Vacant land**

applicability of discounted cash flows for short-term developments, 151-172

effects of a nuclear power plant on land sale prices, 34-44

relationship between profit and yield in land development, 151-172

### **View**

price effects of view of high-voltage transmission lines, 45-62

### **Yield**

potential problems in subdivision development and inappropriate application of profit and yield, 151-172

## Cases in Brief

- Advertising billboards in Kansas are considered trade fixtures and are personal property for which compensation is not required in eminent domain proceedings, 92-93  
 All interests in leased property must be aggregated to arrive at actual market value of property for tax assessment purposes, 2  
 Annual payments may form part of just compensation in easement condemnation cases, 193-194  
 Appraisal award issued pursuant to insurance contract is "favorable resolution" of underlying breach of contract dispute for purposes of bad faith cause of action, 1  
 Bank in foreclosure mitigation matter may use appraisal by its wholly owned subsidiary, 192  
 Claims of negligence and negligent misrepresentation against appraiser must show that appraisal was produced for plaintiff and plaintiff relied upon it, 96  
 Compensation for inverse condemnation depends on whether damage is temporary or permanent, 192-193  
 County may appraise property for tax purposes only in specified permitted years, 191-192  
 Court may adopt appraiser's determination that highest and best use of commercial lots was residential use, 188-189  
 Dissatisfaction with contractual appraisal not sufficient to establish standing, 281-282  
 Evidence showing purchaser paid less than fair market value at non-judicial foreclosure sale supports trial court's denial of confirmation of sale, 91-92  
 Failure to address property owner's extensive evidence concerning property value may result in remand of tax court's property valuation, 93  
 Failure to comply with rules governing appellate briefs will preclude appellate review of trial court's decision to grant summary judgment, 4-5  
 For purposes of negligent misrepresentation claim, statute of limitations begins to run when party purchases property, 282-283  
 Highest and best use analysis of multi-structure property should focus on use hypothetical purchaser would make of property, 284  
 If sales comparison approach fails to establish value, assessor may use other appraisal methods, including mass-market software, to determine fair market value, 189  
 In Connecticut, assessor may use hypothetical condition for property tax valuation, 188  
 In Pennsylvania, a murder/suicide on a premises is not an objective material defect that must be disclosed by the seller, 97  
 Insurer can retain right to deny claim without violating appraisal clause, 283-284  
 Jury instructions regarding breach of insurance policy's appraisal provisions may be proper and fair, 285-286  
 Lease price of state land within right-of-way based on fair market value of land, not fair market value of leasehold interest, 6  
 Lender involved in financing property, but not appraisal, not liable for allegedly fraudulent appraisal, 285  
 Neither lay opinion nor out-of-court expert testimony carries taxpayer's burden of showing that property tax assessment was incorrect, 5-6

Only the value of possessory interest of tenant may be taxed when landlord is tax-exempt entity, 283

Parties to agreement that provides no judicial review of appraisals bound by terms of agreement, 281

Presumption that equalization board faithfully performed duties and acted upon competent evidence may be rebutted by clear evidence that board's decision was arbitrary and capricious, 95-96

Property quality ratings must be based on substantial evidence, 3-4

Statute authorizing award of "heritage Value" in condemnation proceeding does not violate state constitution, 279-280

Statute providing alternative procedures for resolving disputed property insurance claims does not allow insured to avoid appraisal process, 91

Tax assessor's valuation is competent evidence of value in probate estate administration, 286

Trial court did not abuse discretion by awarding attorney fees for three separate appraisal orders that resulted from single appeal, 2-3

Trial judge abused discretion when admitted appraisal into evidence without evaluation appraiser as foundational witness, 190-191

Valuation conducted by state appraiser will only be set aside if taxpayer can demonstrate they are clearly erroneous, 97-98

The value of credit a borrower is entitled to on defaulted mortgage determined at time of judicial sale, not at time of subsequent resale, 190

Value of low-income housing tax credits should be considered when valuing property for creditor lien, 187

Where appraisal is not required, state-certified assessor may produce "valuation disclosure" in support of property tax assessments, 4
